REFER TO SLIMLINE II TRAY UNIVERSAL ASSEMBLY INSTRUCTION (DOCUMENT RRTUNI)

3

FIT THE FEET

REFER TO FOOT ASSEMBLY & SLIMLINEII TRAY FOOT ADAPTER INSTRUCTIONS (DOCUMENT FASSUNI & RRAC021)

- (A) With your Rack in the upside down position (Product sticker should be upside down), fit the Foot Adapter Plates and top of the Feet to your Slimline II Tray as illustrated below.

NOTE: DO NOT SLIDE THE RACK AND FEET ACROSS THE ROOF! If there is a chance that you are going to set the roof rack on to the roof, place some moving blankets and/or towels over the roof. If you must lower the rack before it is in position, carefully set the Feet on the padded surface.

Once your Slimline II Roof Rack is fitted, ensure a 15mm clearance is maintained between the Wind Deflector and the vehicles roof otherwise damage to the roof may occur. Bend the Wind Deflector by hand if necessary.

MOUNT THE RACK TO YOUR VEHICLE

REFER TO FOOT ASSEMBLY INSTRUCTION (DOCUMENT FASSUNI)

- (A) Insert the required Bottom Feet into each Track and space according to the distances between the Top Feet fitted to the Rack in Step 3 (Document FASSUNI).

Grab your friend and with one of you on each side of the Rack, flip the rack end over end (Prevents the Hex Bolts from falling out the machines slots) so that the Feet are facing down. With the Wind Deflectors facing forward, approach the vehicle from the rear lifting the Rack up and over the roof.

Position the Rack as far back as possible without it overhanging the rear of the vehicle. Bring the rack down slowly lining up the Top and Bottom Feet and loosely fasten.

Center the Rack left to right. Ensure that the Rack is level - front to back and left to right - before tightening.

Congratulations, you have completed your installation. Take a step back and admire your work. Good Job!

TAKE A TRIP

- (A) After your first adventure, check that all nuts, bolts, screws and fittings are tight. Re-tighten where needed. You'll find a small amount of settling has happened.

Go on many more adventures, periodically checking all nuts, bolts, screws and fittings.
